

The questions you should answer to have successful CI/CD Approach

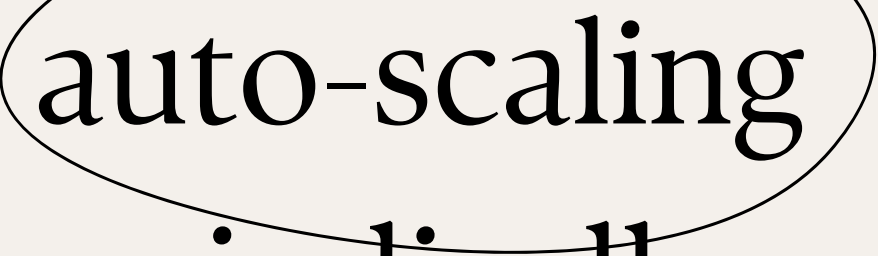

@DMYTRO_KONSTANTYNOV

FREQUENT COST EVALUATION:

Have you routinely
compared your
infrastructure expenses
with potential cloud
solutions?

@DMYTRO_KONSTANTYNOV

PERIODIC AUTO-SCALING REVIEW:

Is your  auto-scaling
approach periodically and
effectively adjusting to
varying workloads?

@DMYTRO_KONSTANTYNOV

REGULAR EMPLOYMENT OF MANAGED SERVICES:

Are you routinely
reducing operational
workloads by leveraging
cloud provider-managed
services?

@DMYTRO_KONSTANTYNOV

REGULAR EMPLOYMENT OF MANAGED SERVICES:

Are you systematically and
proactively optimizing
cloud expenditures?"

@DMYTRO_KONSTANTYNOV

SYSTEMATIC COST CONTROL:

Are you systematically and
proactively optimizing
cloud expenses?

@DMYTRO_KONSTANTYNOV

CONSISTENT SECURITY AND COMPLIANCE:

Are regular security and
compliance measures
maintained throughout
the migration process?

@DMYTRO_KONSTANTYNOV

INTERMITTENT DATA TRANSFER
AND LATENCY ASSESSMENT:

Do you have checks to
address data transfer and
latency issues affecting
post-migration
performance?

@DMYTRO_KONSTANTYNOV

ONGOING DISASTER RECOVERY PLANNING:

Do you have a continuous
and robust disaster
recovery plan in place for
unforeseen events?

@DMYTRO_KONSTANTYNOV

CONTINUAL SCOPE MANAGEMENT:

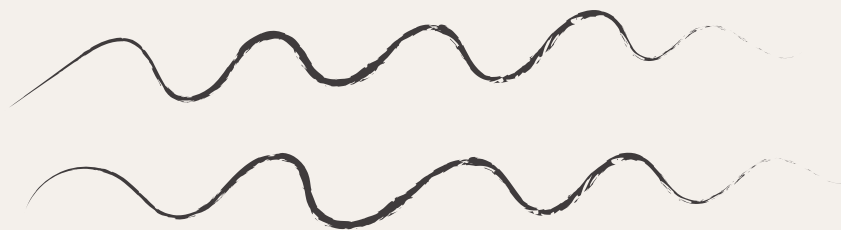

Is the project's scope
continuously monitored to
prevent it from expanding
beyond the initial plan,
and is it being effectively
managed?

If it's all 'Yes,' great job!

If not, I'm here to help,
let's discuss.
